02/02/2025

Location:

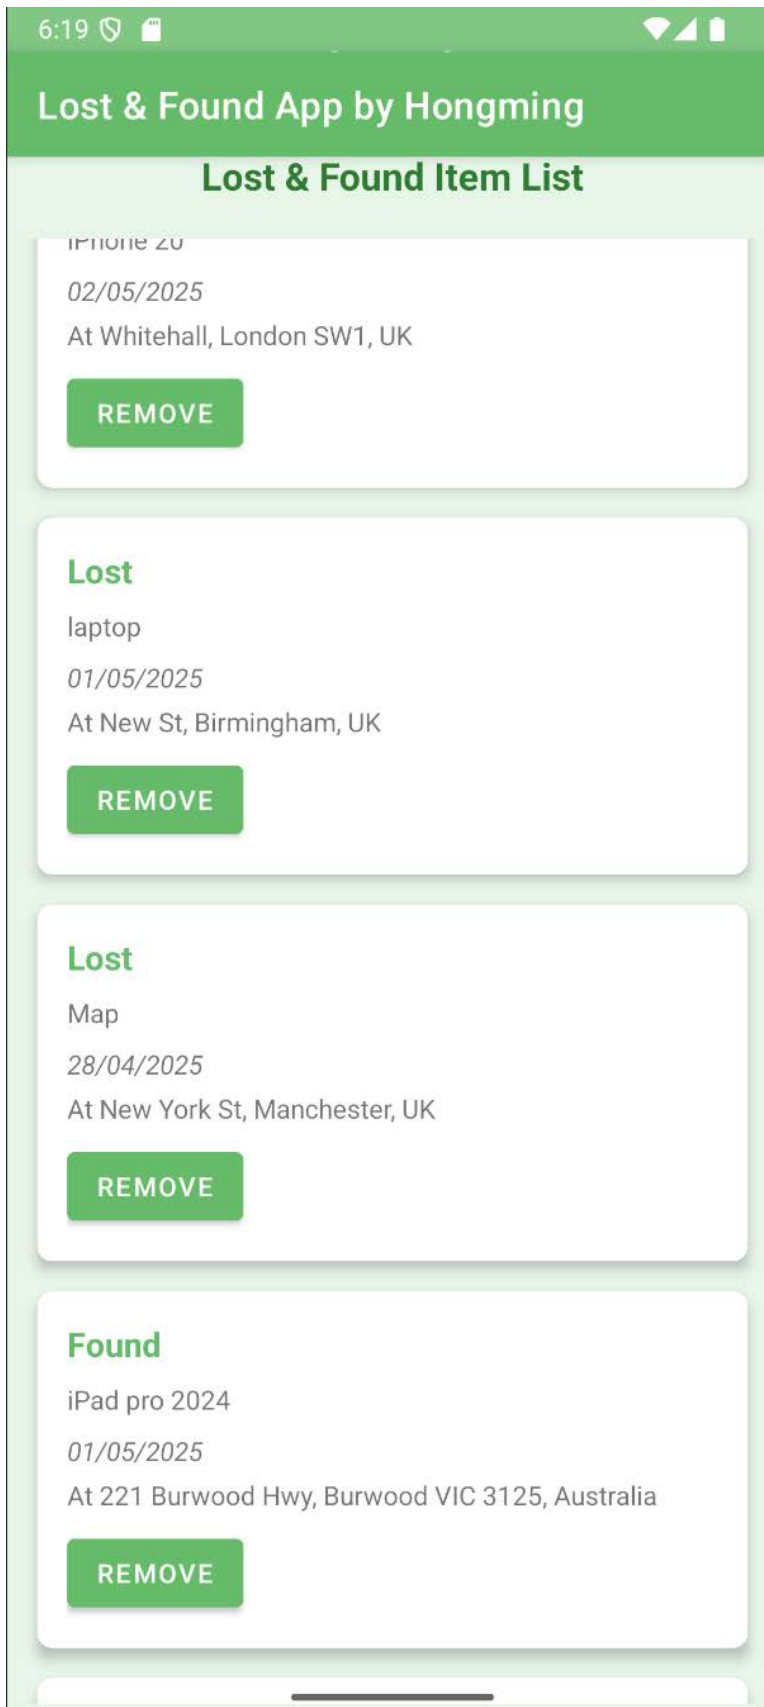

Enter location or use button below

Google Building 43, 43 Amphitheatre Pkwy, Mount:

GET CURRENT LOCATION

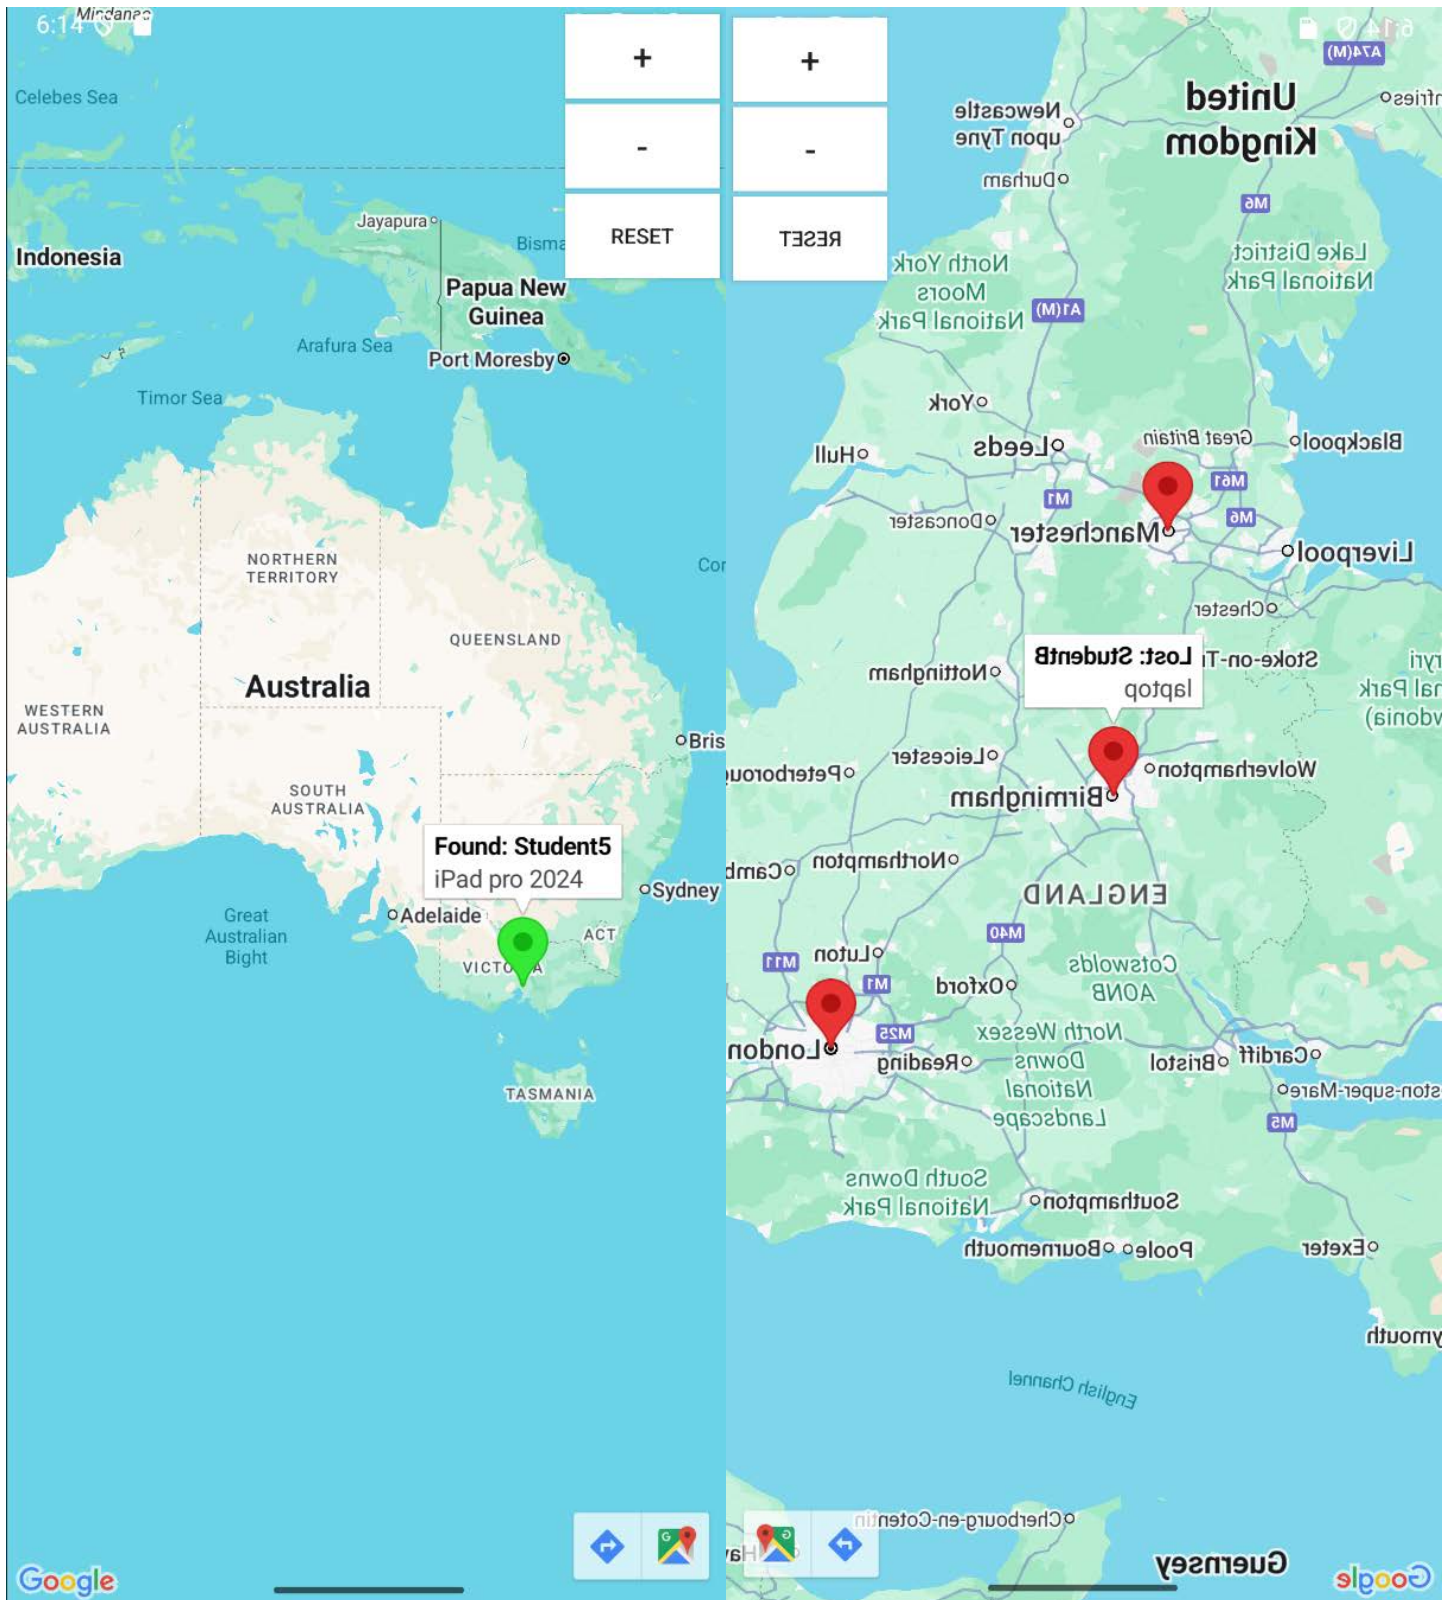

SAVE

After creating all the lost or found item, the item list is like ↓

And the remove function can be normally used as Task7.1P;

The map page (About one found item in Australia, Deakin University and three lost items in UK):

The found items would be green and those lost items would be red in the map.
